“The Story of Independence, Missouri – Where Presidents Walk”

Commissioned by the Independence Examiner newspaper for its Centennial in 1998. This deals mostly with historic events in Independence covered by the Examiner.

VHS

Length: 28 minutes

The following is a series of 9 video tapes (3/4”) of a 7-hour seminar held at Princeton University on June 22 & 23, 1982. The panel discussions cover primarily the year 1949 and a portion of 1950. During this time the Truman administration was determining whether or not to go forward with the development of the hydrogen bomb. The Russians tested their atomic bomb in 1949. McGeorge Bundy is the host and narrator for the discussions. There were a total of 7 men involved in the panel discussions during the two day period. These videotapes were received from Mr. Arthur Singer of the Alfred Sloan Foundation, in 1984.

VT2006-10

Participants are: Professor Cyril Smith (General Advisory Committee during WWII and organized the procurement of the metallic parts for the hydrogen bomb); Professor Stad Ulham (in Los Alamos in 1943 -1949, a thermonuclear physicist); Dr. John Manley (neutron physics professor from Columbia University, in Los Alamos, General Advisory Committee); Dr. Henry Smyth, Princeton (on Manhattan District from 1941 forward, nuclear physicist, Atomic Energy Commission 1949). Discussion of the early work of Edward Teller and Enrico Fermi and their various participations in the development of the atomic bomb.

Length: 30 minutes

VT2006-11

Professor Stad Uhlam; Bill Golden (Atomic Energy Program, summer of 1941 while serving in the Navy, 1946 began working with Lewis Strauss); Dr. John Manley; Professor Henry Smyth; Gen. Ken Nichols (West Point graduate in Engineering on Manhattan District, left Pentagon in 1947, worked with United Nations as an advisor, April 1948 became Chief of Armed Forces Special Weapons Project). Discussion of the ways in which important departments within the U. S. government reacted to the Soviet test of their atomic bomb in August & September 1949.

Length: 1 hour

VT2006-12

Prof. Stad Uhlam, Bill Golden, Dr. John Manley, Prof. Henry Smyth, General Ken Nichols. Introducing Gordon Armin, State Department with Secretary of State Henry Stimson, went to United Nations to try to gain control of nuclear weapons. Served there 2 years and then went back to Washington as Special Assistant for Atomic Energy to Secretary of Defense Robert Lovett and then Secretary of State Dean Acheson. This tape is a discussion of the events of 1949.

Length: 30 minutes

VT2006-13

Professor Cyril Smith, Professor Henry Smyth and Dr. John Manley. Discussion of the General Advisory Committee of the Atomic Energy Commission after the Russian test and other events of 1949-1950.

Length: 30 min

VT2006-14

Dr. John Manley, Dr. Henry Smyth, Bill Golden, Professor Cyril Smith. First portion of tape discusses the reports from the Atomic Energy Commission and the GAC in 1949 pertaining to the military worth of a super bomb. Second portion of tape discusses the appointment by President Truman of Dean Acheson, Louis Johnson, David Lilienthal to study these reports. Second discussion included Dr. Manley, Professor Smyth, Bill Golden, Gen Nichols, and Gordon Armin.

Length: 1 hour

VT2006-15

Tape begins in the middle of General Nichols speaking. Same people as in tape VT2006-14, and is probably a continuation of that discussion with some sort of interruption. Discussion of whether or not to continue on with the development of the hydrogen bomb and at what speed. Events of late 1949 thru early 1950.

Length: 1 hour

VT2006-16

Professor Smyth, Professor Smith, Stad Uhlum, Bill Golden, General Nichols, Gordon Armin, Dr. Manley. Discussion of the actual beginning of the development and production of the hydrogen bomb.

Length: 1 hour
