MERCIANTON FOR:

The Honorable William N. Boyle, Jr.

Dear Bill:

Here is the letter from Dwight H. Palmer, which had been placed in our general files.

Many thanks for calling this to our attention.

DAVID E. KILE

THE WHITE HOUSE
WASHINGTON

November 28, 1950

MEMORANDUM FOR MRS. BONSTEEL:

I have clipped the papers which I believe should be returned to Mr. Boyle's office, as they requested.

You will note that in Mr. Palmer's letter he asked that the correspondence from Judge Fahy be returned to him.

Miss Potts

[Handwritten note]

Miss Bonsteel:
I suggest they be returned by our mail service with covering memo and letter. Also that copy be made in case other is out.

My dear Mr. President:

I am most grateful to you for your kind letter of September 11th regarding the work of the President’s Committee on Equality of Treatment and Opportunity in the Armed Services. The principles which you announced and which governed the Committee’s work exemplified your great leadership in this field. All of us who served on the Committee appreciate the opportunity to have assisted in furthering these principles. I am particularly pleased with your references to the developments in the international field and sincerely hope that the work of the Committee will aid in furthering international understanding and good will.

With my personal thanks and regards, believe me,

Yours very sincerely,

Dear President Truman:

I am acknowledging with appreciation your greetings extended to the National Urban League Conference on the occasion of our Fourth Anniversary year. The officers and delegates present at the Conference were especially gratified over your reference to Mr. John Bemstein and Mr. Dwight E. Miller, who were the recipients of the National Urban League's "Two Friends Award". Your specific reference to their work on the President's Committee for Equality of Treatment and Opportunity in the Armed Services provided the accomplishments of the Committee with a deserved prominence.

In this connection, may I also thank you for your letter addressed to me on September 13th, in acknowledgment of my own Committee membership. Those of us who gave time to this important task were thoroughly conscious of our difficult undertaking, and were greatly encouraged by the support which you gave to our efforts. We were realistically aware that our findings and recommendations constituted a minimum rather than a maximum plan of action, and that constant vigilance must be exercised by the White House and the Office of Defense to make certain that in the Army especially gains continue to be recorded along the line of our Committee's recommendations.

As a member of that Committee, may I express the hope that you will recognize the need for such constant supervision and follow-up by designating an official body, representative of the public interest, to examine into continuing developments and make appropriate recommendations to the Secretary of Defense and the President of the United States.

Very truly yours,

/s/ Lester R. Granor
Executive Director.

My dear Mr. President:

To receive your commendatory letter of September 21st relating to my participation in the work of the President's Committee on Equality of Treatment and Opportunity in the Armed Services is indeed an honor. Particularly is your kind courtesy evident at this time when your heart, mind and body are occupied with the pressing obligations of your high office.

It is a privilege to again assure you of my continuing personal support.

Sincerely yours,

My dear Judge Fahey:

Last May, the President's Committee on Equality of Treatment and Opportunity in the Armed Services presented a report to me, and I read with keen interest and satisfaction of the progress toward equal opportunity that is being made in the Armed Services.

I am glad that the Services are taking these forward steps, and I am appreciative of the guidance the Committee furnished. I watched the Committee's operations closely, and I was deeply impressed with its search for ways and means to bring about equality of treatment and opportunity throughout the three Services.

Since the Report was submitted, the Armed Services have been called upon by the United Nations to defend the right of small nations to be free from aggression, and they have made a demonstration of improved military efficiency.

The people of our country have shown that they are united in their willingness to accept this grave responsibility, and are enthusiastic in their devotion to the integrity of the United Nations. As Americans we will always be eager to develop in our own lives the same ideals of human dignity and individual freedom we are so vigorously defending on behalf of the United Nations.

The country is grateful for the work of this Committee, and I am particularly appreciative of your faithful service as Chairman.

Very sincerely yours,

MEMORANDUM FOR THE HONORABLE WILLIAM D. HASSETT:

Dear Mr. Hassett:

I am attaching drafts of letters to the members of the President's Committee on Equality of Treatment and Opportunity in the Armed Services.

Mr. Niles has approved the drafts, which are substantially similar, but have varying and individual references in the final paragraph.

Charles Luckman presented a bit of a problem, inasmuch as he never attended any sessions of the Committee, and was not invited by the Committee to sign the report, or to be present at the final presentation to the President.

I leave this problem to your infinite wisdom, but to make life easier for you, I have included a letter, addressed to him, which commends the work of the Committee, but does not thank anyone for anything.

Mr. A. J. Donehue died while the Committee was in meeting, and I have included a letter addressed to his widow.

Draft letter to the members of the Poly Committee

Dear Mr. [Name],

I have read the report of the President's Committee on Equality of Treatment and Opportunity in the Armed Services with much interest. It is most gratifying to me that the Committee was able to report that its recommendations have been adopted and that the present progress of the Armed Services will lead, within the reasonable near future, to equality of treatment and opportunity throughout the three Services, with a consequent improvement in military efficiency.

This progress report comes at a significant moment in our nation's history. Our Armed Services are now being called upon by the United Nations to defend the rights of small nations to be free from the threat of aggression. Our country is called in its willingness to accept this grave responsibility and is enthusiastic in its devotion to the ideals and the dignity of the United Nations.

I am glad that our Services are taking these forward steps to promote within their own organizations the same ideals of human dignity,
and individual freedom they are so vigorously defending on behalf of
the United Nations.

The country is grateful for the work of this Committee, and I
am particularly appreciative of your faithful service (or - your husband's
faithful service) as a member (or as Chairman).

Very sincerely yours,

Dear Bill:

Hate to bother you so often, but here's a funny one: Note my file attached and please return.

Someone has slipped. The President wrote each Committee a letter appointing him, the President subsequently indicated verbally that this Committee was the only one that came in with the job actually done rather than "recommending". Messrs. Granger and Sengstake have quizzed me as to receipt of any letter from the President. I can't believe it's other than a secretary's slip-up, but these committee appointments are usually at least partially "good will" moves; therefore why not cash in on them when the job is done? None of the Committee members, except Judge Fahy, have been released.

Please understand, I am not bothering you on any personal basis, but a president of a college like Oberlin, which institution is trying to practice non-discrimination and two outstanding Negro citizens ought to be considered personalities. Am I right or should I sign off?

Best wishes.

Dear Charles:

You were very thoughtful to write me as you did on the tenth and to supplement this with yours of the twelfth.

Your acknowledgment to the President was a masterpiece, and I am certain must have been very heartening to him in these tempestuous days.

As to our association, this has been one of the pleasant experiences of my life. You as Chairman, were always thoughtful of your coadjutres, as well as the members of the staff. Your judicial skill and friendly comradeship combined a rare guidance and help throughout our sessions.

What more can a man say than express appreciation for your friendship and hope for its continuance.

Your letter of July 6th 1950 advising that as of the same day you were relieving your Committee on Equality of Treatment and Opportunity in the Armed Services, while at the same time leaving in effect Executive Order 9981, is received.

Your expressions regarding the work of the Committee are appreciated. If we have been able to help it has been due to your own leadership in formulating the Executive Order and in taking practical steps to accomplish its high purposes. Furthermore, your uniformly sympathetic support of the Committee during the full period of its work gave us the necessary encouragement and confidence.

I am sure I speak for the whole Committee in expressing our appreciation to you and our gratitude for having had the opportunity to engage in this work to further our national ideals. We fervently hope that the program adopted will be successful and that this troublesome problem is being solved in a way to add strength to the Services and to the country as a whole in whatever lies ahead.

Dear Mr. Palmer:

No doubt you have recently received from the President a letter dated July 6th advising that we were relieved as of that date that the airplane Order was being kept in effect. This letter expressed the President’s appreciation of our service and states that he feels that the Armed Services should now have an opportunity to work out in detail the procedures which will complete the steps initiated by the Committee.

So, our own work as a Committee is over; and I wish again to express to you my personal regard and gratitude for having been able to work with you on this important problem. I hope the end of our work as Committee will not end our contact with each other. When you come to Washington please let me know so that we can have a visit. I shall always look back with much happiness upon our association in the task we undertook.

With all good wishes, believe me,

Enclosure
July 6, 1950

Dear Mr. Fahey:

On July 26, 1948, Executive Order No. 9981 created the President's Committee on Equality of Treatment and Opportunity in the Armed Services, and on September 18, 1948, you, as Chairman, and six other members were designated to serve on this Committee. On May 29, 1950, you presented your Report to me, and I have read with much interest and satisfaction of the progress that has been made in the Armed Services under your Committee's guidance.

I note that the substance of the Report is that the present programs of the three services are designed to accomplish the objectives of the President; and that as these programs are carried out, there will be, within the reasonably near future, equality of treatment and opportunity in the Armed Services, with a consequent improvement in military efficiency.

The necessary programs having been adopted, I feel that the Armed Services should now have an opportunity to work out in detail the procedures which will complete the steps so carefully initiated by the Committee. Accordingly, I am relieving the Committee of its assignment as of today, while I am, at the same time, leaving in effect Executive Order No. 9981. At some later date, it may prove desirable to examine the effectuation of your Committee's recommendations, which can be done under Executive Order No. 9981.

You and the members of your Committee have performed an outstanding service to your country. The care and skill with which you approached this problem have helped the Services take important steps toward the realization of our national ideals. At this significant moment in our Nation's history, we are able to draw closer together our principles and our practices for the more effective defense of the cause of freedom.

Very sincerely yours,
