President has directed that instructions be issued as follows:

All restrictions on employment of FEOC Navy and Air Forces are removed. They will offer fullest possible support to South Korean forces so as to permit these forces to reform.

Purpose of above action is to support SK forces in accordance with resolution of United Nations approved 25 June.

In addition 7th Fleet will take station so as to prevent invasion of Formosa and to insure that Formosa not be used as base of operations against Chinese mainland.
Detailed instructions reference Navy and Air Forces follow:

All restrictions which have previously prevented the full utilization of the U.S. Far East Air Forces to support and assist the defense of the South Korean territory are lifted for operations below the 38th Parallel. All North Korean tanks, guns, military columns and other military targets south of the 38th Parallel are cleared for attack by U.S. Air Forces. The purpose is to clear South Korea of North Korean military forces. Similarly Naval forces may be used without restriction in coastal waters and sea approaches of Korea south of 38th Parallel against forces engaged in aggression against South Korea. (End DA-1)
