President Harry S. Truman  
White House  
Washington, D. C.

Dear Sir:

I am writing to register a protest against your action in releasing General Douglas MacArthur of his Command. I think it is an outrage and believe it benefits our Congress to do something about it. In fact, I have written them today telling them so.

May I suggest to you that General MacArthur probably has forgotten more about the Far East than those advising you in Washington have ever known. As a good American, I am ashamed of my President! Of course, I am not one of your followers - I have never voted for you - and will never vote for you.

In my opinion you have committed the worst blunder of your administration.

Very truly yours,

*Dorothy E. Weir*
