Dear Mr. President:

I read with a lot of interest your Report No. Three -
The Necessary Steps for Promotion of German Exports
and it is a most interesting document.

x198
x275-A

I do appreciate most highly your willingness to go into
this matter and I also appreciate the thoroughness with
which you have covered the ground.

I am hoping we can work out the economic situation in
Germany so as to reestablish the European balance of
trade. At Potsdam I suggested to the conference that
the Rhine and Danube should be free for the transport
of merchandise to all those countries that had riparian
rights on them and I am sure that it is going to be
necessary to reestablish the economic balance in Europe
before we can possibly reestablish the political balance.

I think you have made a great contribution toward that
end.

Sincerely yours,

HARRY S. TRUMAN

The President
The White House
Washington, D. C.

Dear Mr. President:

I am sending you herewith my conclusions upon the problems of reviving German industry and thus exports with which to relieve American and British taxpayers from their burden in preventing starvation in Germany. These problems also involve economic stability and peace in Europe.

Whatever may have been our policies in the past, I am convinced that the time has come to face the realities that have developed. The mission you assigned to me would be less than performed if I did not state the stark situation and make such recommendations as seem to me necessary.

I wish again to express my appreciation to you for your consideration, to my colleagues Mr. Hugh Gibson, Dr. Gustav Stolper, Dr. Dennis A. Fitzgerald, Dr. William Sebrell, Jr., and Messrs. Louis Lochner, Frank Mason and Tracy Voorhees, and to our military and civil officials in Germany.

Yours faithfully,

Herbert Hoover
