Sir:

We, the undersigned, beg leave to call attention to the alleged fact that the prosecution of Nazi war criminals is being stopped by Secretary Royall, and that an effort is being made to preserve certain German cartels.

The following quotation is taken from the Detroit Free Press of April 23, 1948:

"Simultaneously, certain highly placed defense chiefs have started a quiet drive to save both the factories and the personnel of I. G. Farben, the Krupps and other big Nazi munitions-makers....."

"Gen. Lucius Clay, U. S. commander in Germany, has had nothing to do with it. In fact, he refused to sign one directive ordering the big munitions cartels exempt from decartelization.

"Gen. Lucius Clay, U. S. commander in Germany, has had nothing to do with it. In fact, he refused to sign one directive ordering the big munitions cartels exempt from decartelization.

....."Incidentally, it was also Wall street firm of Dillon, Read and company, of which James V. Forrestal was head, that loaned a lot of money to these same

muniton-makers.

"Today, Forrestal is Secretary of National Defense, William H. Draper, former vice president of Dillon Read is Undersecretary of the Army, while Paul Nitze another vice president of Dillon, Read, holds a key economic job in the State Department.

"Finally, Phillip Hawkins, son-in-law of Dillon, Read partner Draper, is chief of the property division of the American Military Government in Germany and is the man who wrote the memo which General Clay refused to sign."

It need hardly be said that men charged with the making of government policy should be above any suspicion of collaborating with the perpetrators of Germany's diabolical crimes. For this reason we urge that all appointees whose connections or conduct render them liable to such suspicion be removed from office and that the prosecution of war criminals and the elimination of cartels be promptly completed.

We believe this to be both a moral obligation and a political necessity. Any other course is bound to destroy the world's confidence in American in-

muniton-makers.
